

# Engage & Empower

I am ready to do the serious work of addressing the issues that keep many of our city's people in poverty.

## I can....

**Choose** a passion and...

1) **Find** someone who is impacted by it and learn from them.

2) **Read** an article about it.

3) **Advocate** by talking with others about it or posting my thoughts on social media.

**Mentor** a Westerly Hills student as a Success Coach. With the provided training, I'll be able to help him or her develop skills in goal setting, decision-making and interpersonal relationships.

**Amplify** someone's voice, by sharing or re-tweeting affirmative posts.

**Get to know** candidates for political office and endorse those who have impressed me. I can introduce them within my circle.

**Broaden** my circle by adding those just starting out.

**Be available** to introduce, advocate for, advise, and refer business to others.

**Read** the Opportunity Task Force Report to understand the needs of our community.

**Remember** that social capital is not depleted by use.
